The Oklahoma Insurance Department (OID) is proud to announce the success of its second annual Oklahoma Insurance Day conference, held on Dec. 4 at Embassy Suites Downtown Medical Center. The event brought together almost 200 industry professionals, regulators, and Oklahoma business leaders to engage in discussions on key issues affecting Oklahoma’s insurance sector.

Oklahoma Insurance Day showcased 21 expert speakers who led panel discussions covering a range of topics, including Oklahoma insurance business transfers. Insurance commissioners representing Utah, Kentucky, and Arkansas shared their perspectives on market trends, innovations, and challenges in regulation. The conference concluded by addressing the use of artificial intelligence in the insurance industry, the new OK Ready: Strengthen Oklahoma Homes program, and key services OID offers to consumers. Commissioner Mulready also hosted a live special episode of the Mulready Minutes Podcast featuring Lance Walker, Executive Director of the Human Performance and Nutrition Research Institute at Oklahoma State University.

“We’re thrilled with the turnout and engagement we saw from participants,” Oklahoma Insurance Commissioner Glen Mulready said. “This conference continues to feature industry experts from around the country and host key sessions on emerging issues affecting the Oklahoma insurance market.”

OID is grateful to the participants, speakers, and sponsor, Independent Insurance Agents of Oklahoma (Big I Oklahoma), who contributed to Oklahoma Insurance Day’s success.

Oklahoma Captive Day

The Oklahoma Insurance Department (OID) is proud to announce the successful conclusion of its first-ever OK Captive Day. The conference, held at the Embassy Suites Downtown Medical Center on Aug. 20, attracted almost 200 registered attendees from across the captive industry in Oklahoma.

The conference focused on the essential aspects of captive insurance, including the basics of captives and the advantages of domiciling in Oklahoma. The sessions featured leading captive experts from across the state and country.

“Oklahoma is becoming a leader in the captive insurance industry, and this event underscored our commitment to fostering a robust environment for captive insurers,” said Oklahoma Insurance Commissioner Glen Mulready.

“OK Captive Day was a resounding success and provided a space for stakeholders to come together, exchange ideas and explore the potential captive insurance can hold for businesses,” said OID Captive Insurance Director Steve Kinion. “We look forward to continuing to build momentum in our captive sector.”

Recently, Captive Review honored OID with its Captive Domicile of the Year award in the less than \$5 billion gross written premium category. In 2023, Oklahoma saw a 34% growth in captive premiums and a net gain of 14 captive insurers, bringing its total to 59.

It is such a relief to know that his heart surgery, which cost over \$600,000, will be covered by his insurance, and he can now just pay his copay portion of the surgery. Thank you for helping us and being so kind and considerate as we tried to be patient. I'm glad we have the Oklahoma Insurance Department to contact for help."

Case Highlight

An OID Anti-Fraud investigation led to charges being filed against an Oklahoma insurance producer accused of submitting bogus insurance applications as legitimate business. The producer was alleged to have created multiple fake insurance policy applications for the purposes of receiving commission payments to which he was not entitled. The scheme involved using the names and identities of unsuspecting parties, forging fake signatures to policy documents, and reporting fraudulent addresses, some later found to be vacant fields and empty lots. The producer stands accused of defrauding the employer of over \$40,000 in this manner and faces multiple felony counts of Identity Theft and Obtaining Monies by False Pretenses.

Year in Review

The MAP Division continued to work diligently to reach as many older Oklahomans as possible through presentations, health fairs, and social media to educate them on the services we provide, as well as any changes taking place in the Medicare program. One of the more critical services we provide is the annual review of Part D prescription drug coverage for beneficiaries. In 2024 there were 20 different Part D plans available, each with their own formularies, cost structures, and pharmacy networks. Our mission is to help seniors identify the plan that provides them with the most comprehensive coverage at the best price. From July through December of 2023, we saved the beneficiaries we assisted an average of \$3,115.77, for a total of over \$4 million.

We also provided Medicare supplement insurance rate comparisons to beneficiaries who took advantage of the new “Birthday Rule” that was implemented by the Oklahoma Insurance Department in September of 2023. Under this new rule, beneficiaries who are currently enrolled in a Medicare supplement policy have a 60-day period, starting on their birthdate, to review or purchase a different Medicare supplement policy of equal or lesser benefits without having to go through underwriting. This new rule has the potential to create significant savings to beneficiaries who were previously trapped in Medicare supplement plans with ever-increasing monthly premiums.

We also screened beneficiaries for assistance programs for which they might qualify to assist with the costs associated with their Medicare coverage.

The MAP Division has trained counselors around the state in various agencies to assist beneficiaries in their local communities. In addition, we’ve trained a number of individuals within some of the tribes and clinics in Oklahoma to assist their elders with their healthcare decisions. Each of these counselors go through extensive training and testing before providing counseling to beneficiaries.

Medicare fraud continued to be a major issue across the country, and Oklahoma was no exception. The most common reports we received were related to COVID 19 test kits and urinary catheters. Another frequently reported problem was phone callers claiming to be from government agencies requesting personal data. Between January 1st and August 31st of 2024, the Medicare Assistance Program assisted with 758 suspected Medicare fraud calls.

MAP is available for presentations to groups of any size around the state. We speak at senior centers, churches, cultural centers, health fairs, etc. to educate as many people as possible about all aspects of Medicare so beneficiaries can make educated decisions about their healthcare coverage.

Division Funding

- 01. SHIP GRANT** provides funding for education and counseling about Medicare, Medicare Supplemental Insurance, Medicare Advantage plans and Part D prescription drug coverage.
- 02. SMP GRANT** provides funding for education on fraud, waste and abuse related to the Medicare program. We also assist beneficiaries if they think they have been a victim of a scam.
- 03. MIPPA GRANT** provides funding for outreach to low-income seniors who may qualify for assistance in paying for Medicare coverage, including health and drug costs.

2024 Legislative Recap

Senate Bill 541. adds a registration process for Administrators who sell debt waivers and vehicle value protection products. It also sets a response timeframe of twenty (20) days for the entity to respond to requests made by the Department. The measure also adds a 90-day reinstatement period for Service Warranty licensees submitting a renewal and prescribes the process for those who allow their license to expire for more than 90 days.

Senate Bill 542. requires electronic filings with the Insurance Department to include payment of any transaction, filing, or other applicable fees. The measure also authorizes the Insurance Commissioner to approve an insurer's redomestication application without first holding a public hearing, but denial of redomestication will still require a public hearing before becoming final. Additionally, the measure requires insurers to keep any contact information deemed necessary by the Commissioner on file with the Insurance Department and submit any changes to such information within 20 days of the change.

Senate Bill 543. creates the Insurance Data Security Act. The measure requires defined licensees of the Insurance Department to develop, implement, and maintain a comprehensive written information security program based on the risk assessment of the licensee. The licensee shall provide the assessment and designate an employee to act on behalf of the licensee who is responsible for the information security program.

The program shall be designed to address risks identified in the assessment, design security measures addressing areas of access and auditing systems, remain informed of developments in cybersecurity, and train personnel.

Senate Bill 620. updates the Limited Liability Company Act, the provisions in Section 1031 allow an Oklahoma Corporation to form a Captive Insurer for the purposes of D&O Coverage.

Senate Bill 1941. adds clarifying language to the measure relating to unlicensed individuals presenting themselves or acting as bail bondsmen. It provides that when a bondsman has guaranteed travel expenses to return a defendant to custody the law enforcement agency that placed the hold shall promptly advise the bondsman of a hit confirmation. Prior to transporting the defendant, the relevant law enforcement agency may provide the bondsman a good faith estimate of the reasonable return expenses to return the defendant to custody. The bondsman may refuse to pay the travel expenses, upon which the defendant shall not be considered returned to custody and the law enforcement agency may release its hold.

House Bill 1979. imposes requirements with respect to agreements between pre-paid vision care plans and service providers and sets standards for reimbursement on certain pricing of materials or services. It also prescribes an application process, sets financial requirements, and requires an annual report to ensure solvency of any organization doing business under this new act.

Government & External Affairs.

2024 Legislative Recap *(continued)*

House Bill 3089. establishes the Strengthen Oklahoma Homes Act, directing the Oklahoma Insurance Department (OID) to implement the Strengthen Oklahoma Homes (SOH) Program, allowing residential property owners to receive grants to construct or retrofit insurable property to resist loss due to catastrophic weather. This measure requires OID to set criteria and eligibility standards, and allows for program funding through federal grants and alternative financial sources to supplement resources that otherwise would be needed from the state. This measure requires the residential property owner to obtain at least three bids from the approved list of certified contractors and pay the evaluator’s fee. In addition, HB 3089 creates the “Strengthen Oklahoma Homes Revolving Fund” to assist the SOH Program in performing administrative duties.

House Bill 3091. modifies various insurance provisions. It authorizes appointed independent hearing examiners, in addition to the Insurance Commissioner, to impose penalties for violations. The measure also removes the minimum penalty requirement for statute, rule, or order violations and requires surplus lines licensees or brokers to make tax filings, payments, and transaction fees available electronically. Finally, it corrects ambiguity in the definition of Health benefit plan from changes that were originally made in 2022.

Chapter 1 Permanent Rules. updates language for a new electronic process for submitting information related to surplus lines quarterly and annual filings and tax payments.

Chapter 10 Permanent Rules. sets up timelines and processes for submitting reports required by SB442 (2023).

Chapter 15 Permanent Rules. Adds in parameters for a third-party designation and direct assignment by the Commissioner for the new workers’ compensation risk pool created by statute last year. Adds parameters for Insurers to follow when doing market surveys for body shop repairs.

Chapter 25 Permanent Rules.

Subchapter 3 updates language for a new electronic process for submitting information related to surplus lines quarterly and annual filings and tax payments. It adds new language specifying when quarterly financial statements and fees are due for Service Warranty companies.

Subchapter 7 updates requirements in the receivership process to be in compliance with accreditation standards.

Subchapter 15 updates language to include other qualified individuals to be approved by the Commissioner for feasibility studies.

Subchapter 29 removes unnecessary language after enforcement of pharmacy benefit managers (“PBMs”) moved to the Attorney General’s Office effective November 1, 2023. Additionally, it removes the audited requirement from yearly financial statements for PBM’s.

Director of Rate & Form Compliance

Rate & Form Compliance.

REGULATE & PROTECT

The Rate and Form Compliance Division works to protect Oklahomans by reviewing the policy forms and rates submitted by insurers to ensure compliance with state statutes and regulations. This division processes the policy forms and rates for most property and casualty lines of insurance, such as Private Passenger Auto, Homeowners, Commercial Property and Liability, and many other related lines of insurance. The division also processes the forms associated with Life insurance products, Annuities, Accident and Health policies, and other related and similar lines of insurance, along with the rates for some (but not all) of those lines. Additionally, this division reviews and approves licenses for rating and advisory organizations, joint underwriting associations, and utilization review providers. This division also serves in a supporting and complementary role to the Commissioner and to other divisions, such as Legal, Market Conduct, Consumer Assistance, to provide information and assistance when needed.

Project Spotlight

The SERFF Modernization project was approved by NAIC membership and began in March 2022. It was estimated to be a multi-year endeavor with a target completion date in 2026.

The goal of the modernization is to create a new system that adapts technology to improve the efficiency and accuracy of rate and form filing for both industry filers and state regulator reviewers. The system incorporates automated control checks to prevent industry filers from submitting incomplete form filings. This will enable regulators to review the filings more easily and improve product speed to market. This year the SERFF Modernization team has partnered with PriceWaterhouseCoopers (PWC), Amazon Web Services (AWS) and Appian to create a new generative AI tool specifically for use within SERFF's new platform. This upgraded functionality will be available in late 2025.

The new system will launch in November 2024 with the Interstate Compact as the first user. As Oklahoma is a member of the Interstate Compact, our Rate & Form team will be able to view Compact filings at that time to see how the system works. The system will then be introduced to the state regulators in Q1/Q2 of 2025 for Life and Annuity products. We have continued to monitor the progress of this project and look forward to the project launch.

Director of Real Estate Appraiser Board

Real Estate Appraiser Board.

REGULATE & PROTECT

The Real Estate Appraiser Board (REAB) ensures that appraisers and appraisal management companies meet federal requirements for licensing and registration. REAB also approves and supervises continuing education providers, instructors, and courses, and enforces the requirements of the Uniform Standards of Professional Appraisal Practice (USPAP). The Board consists of seven regular members appointed by the Governor for five-year terms. The Insurance Commissioner serves as the ex-officio Chairperson.

1,246 Appraisers	339 Appraiser credentials issued
46 Complaints filed	177 Temporary Practice permits issued
36 Complaint files closed	91 Appraisal Management Companies

Note of Appreciation

"I wanted to personally thank your staff for going above and beyond. One of your staff members had to walk me through the Temporary Practice Permit process and while I was very frustrated, she remained completely calm. I deal with state agencies daily, and I wish I could clone yours!"

Year in Review

- 01.** The REAB issued its first test card to an appraiser applicant who obtained all their work product experience through a Practical Applications of Real Estate Appraisals Course (PAREA). PAREA allows applicants to obtain work product experience hours in a virtual setting. This is particularly helpful to those individuals in a rural setting or those having difficulty locating a supervisor.
- 02.** To stay up to date on national and state regulatory and legislative issues, Board members attended the Fall Conference of the Association of Appraiser Regulatory Officials (AARO) in Salt Lake City, Utah and the Spring Conference in Nashville, Tennessee.

Going Forward

- ➔ Over the next year, the Board will be implementing requirements to include mandatory completion of an 8-hour Valuation Bias and Fair Housing course at initial licensure and 4-hour course during the appraiser's continuing education cycle.
